## Plan Description

This traditional 1 story home plan provides a welcoming appearance with a bright and open interior. After walking through the entry, there is an abundance of natural light streaming through the large windows in the great room. Just to the right of that is a beautiful kitchen with modern furnishings, creating a space for traditional to meet luxury. The master bedroom continues to provide the airiness of the space with large windows. Enjoy a coffee while taking in the views after a good night's rest, or sip on a cocktail after a long day of work. This room is perfect for unwinding and relaxing. After stepping into the master bathroom, you are greeted with a beautiful double vanity and soaking tub. Walk a few steps further and step into a glorious walk-in closet with a built-in bench and access to the laundry room. This plan also offers an additional bedroom, as well as two additional bathrooms, a mudroom, dining room, and a screened porch for enjoying the sunset after a home cooked meal. An optional finished basement adds 1849 sq ft of amenities such as an exercise room, two additional bedrooms as well as two additional bathrooms, a golf room, a wet bar, and an additional family room, making this plan great for entertaining!
