## Plan Description

This is a barndominium style garage plan built on a slab foundation. The floor plan has ample room for 2 cars or would work as a stand-alone workshop. A person door is located on the side for easy access. The Burke garage also includes an attic space above for more storage. The ceiling height reaches 8ft throughout most of the attic. The attic provides 461 extra sq ft. This is the ultimate garage/workshop/storage building with amazing curb appeal.
