Plan Description

Stylish Mediterranean details on the outside, coupled with efficiently designed spaces inside, make this 1,734 sq. ft, 1-story house plan an attractive choice for those seeking a home design under 1,800 sq. ft. Just inside from the covered stoop, guests are greeted by views into the great room and the rear covered deck beyond. The great room, with fireplace, has open views to the kitchen and dining area -- which expands entertaining options with access to the rear covered deck. The kitchen features a practical island workspace with breakfast bar, in addition to a handy walk-in pantry. Just off the kitchen, a mudroom with built-in bench, lockers, and catch-all area, acts as a buffer between the 3-car garage and the home's living spaces. The secluded master suite features a 10-foot-high boxed ceiling and a bath area that includes dual sinks, compartmented toilet, and a generous walk-in closet. Bedrooms 2 and 3 are located on the opposite side of the home and share a central hall bath.
