Plan Description

The Cloverdale plan is a wonderful and efficient, modern style home. The exterior blends stone, cedar, and contrasting siding to create excellent curb appeal. Inside the home, the open layout of the main living areas will make you feel right at home. The family room is warmed by a fireplace and flows perfectly into the kitchen and dining areas. The kitchen includes an island with a snack bar and a walk-in pantry. The dining room accesses the back yard through a sliding glass door. Upstairs, you'll find 3 bedrooms. The master bedroom includes a trayed ceiling, his/her vanities, and a walk-in closet. Bedrooms 2 and 3 share a jack and jill bathroom. An optional finished basement adds 595 sq ft and includes an additional family room and an additional bedroom.
