## Plan Description

The Heartland is a 15 foot tall RV Port with walls on 3 sides to safeguard your recreational vehicle from the elements while providing a stylish and functional space. The exposed trusses and lap siding give this RV Port major curb appeal. The RV Port itself is thoughtfully designed to accommodate vehicles of different sizes and configurations. With ample height and width, it easily accommodates motorhomes, travel trailers, fifth wheels, or any other type of recreational vehicle. The spacious interior provides sufficient room for maneuvering your RV in and out of the port, ensuring hassle-free access whenever you need it. Whether you're a full-time RV enthusiast or a seasonal traveler, the RV Port is an exceptional investment. It combines rugged durability, weather resistance, and elegant design, ensuring that your valuable recreational vehicle remains secure and sheltered throughout the year. With this remarkable structure, you can have peace of mind and confidently embark on your next adventure, knowing that your RV is well-protected from the ever-changing elements. This structure is designed for post-frame construction.
