Plan Description

The Huntsville plan is a stunning craftsman style house plan. The exterior features stout wood tapered columns with brick. A large front covered porch invites guests into the home. Just inside the front door you'll find an amazing formal living room with a fireplace. Further inside the home, the great room flows seamlessly with the kitchen and dining room in an open layout. The great room lies under a trayed ceiling and features a fireplace and great views to the rear of the home. The kitchen includes an island and a large walk-in pantry with built-in shelves. The dining room leads to the rear covered patio through a sliding glass door. The amazing master suite is situated on the right side of the home. The master bedroom lies under a soaring cathedral ceiling. The master bathroom includes a dual vanity, a soaking tub, an enclosed toilet area, and a large walk-in closet with laundry room access. On the left side of the home, bedrooms 2 and 3 share a centrally located hall bathroom with the main living areas. The home's 2 car side-load garage accesses the home through a convenient mud room with a bench and lockers.
