## Plan Description

Gracefully arched details are repeated throughout the exterior of this 2,217 sq. ft., Mediterranean-style, 2 Story house plan. The sense of open space makes an immediate impression upon entering the home. The large great room is warmed by a fireplace that is flanked by built-in bookshelves. In the kitchen, you will find an island work area with breakfast bar and a large walk-in pantry. Just off the kitchen is a large dining room that leads to the covered patio. Upstairs you will find the large master suite that includes a sitting area and a luxurious bathroom that has his/her vanities, a soaking tub, a walk-in shower and a large walk-in closet with a bench. Just outside the master suite is a functional laundry area with a soaking sink and folding counter. Bedrooms 2 and 3 each have their own walk-in closet and share a conveniently located bathroom.
