Foundation Type	Basement
Exterior Wall Construction	2x4
Roof Pitches	10/12 Primary, 12/12 Secondary
Foundation Wall Height	9'
Main Wall Height	9'
Second Wall Height	8'

## Plan Description

Stout columns and a large covered porch give the Ramsey a decidedly Craftsman facade. Just inside the home, you'll notice the open layout of this floorplan. The family room, kitchen, and dining room flow together seamlessly. The kitchen includes a large island and a massive walk-in pantry. The family room is warmed by a fireplace to give it that cozy feeling. Upstairs you'll find 3 bedrooms including a stunning master suite. The master bedroom lies under a cathedral ceiling and includes dual vanities and a huge walk-in closet with a built-in island. The master closet has access to the home's laundry room. Bedrooms 2 and 3 share a centrally located hall bathroom and each has its own walk-in closet. An optional finished basement adds 699 sq ft and includes a family room and an additional bedroom with a hidden room.
