Main Wall Height	10'

## Plan Description

This Mediterranean style home was designed with great views. As it sits, it looks like it could fit in most southwest neighborhoods. The large 3 car garage nests at an angle in front of the house. The entry has stone and stucco columns and French doors. When you are in the foyer you will notice the amazing views through the great room to the large covered rear deck. This house has incredible ceiling details in almost every room. If you are looking at pampering yourself check out the size of the master bedroom retreat. The master bath supports his and her vanities and a large walk-in shower.
